Allen,

Thanks for sending it to me. There are one or two points where your translation might be a little free--though very much more elegant than I think a more literal rendering will allow.

"My path now crosses over." I like that image very much, but I think "vorueber gehen" would normally imply that the path is coming to an end. (I checked my dictionary in the hope there might be a meaning closer to "crossing over" but didn't find one. There ought to be!)

"Burden me not too heavily." It is the traveller who has not burdened himself unduly--in the sense 'I travel lightly, for I am ready for the path.'

I've just spent an unsuccessful forty minutes trying to come up with a way of capturing in English the precision of "da muss ich fahren ein." The German

so beautifully expresses the sense of turning in to a specific--and final--destination. Somehow the word "journey" conjures up--in my mind, anyway--an image of moving out into the world, whereas "einfahren" (which is so much more specific than, say, "Reisen") carries with it the sense of turning in/returning (somewhat like "einkehren")--a coach, at the end of a journey, turning down the long driveway to its final destination.

Maybe that is why I like "crossing over": it captures something of the sense, inherent in "einfahren," that the traveller must veer off from the path he has shared with the world to go the rest of the way alone.

Perhaps there is another way of retianing some of that sense in English. I cannot think of it tonight.

All best,  
Tina

13-1500 SKETCH

4-7 [Jesus Christ]

Mein Weg geht jetzt vor-ue-ber, o Welt, was acht' ich dein;
